

Quantity Limits [QLL]

Certain medications covered under the CHW medical plans have quantity limitations to encourage appropriate utilization. Quantity limits are based on clinically approved prescribing guidelines to ensure safe and proper use of medications. Drugs that have established quantity limits are identified on the PDL by the symbol [QLL]. You can download or view a complete list of drugs with quantity limits on www.chwmedicalplans.com. In order to receive an override for the indicated quantity limit, your physician is required to complete a PA Request Form and fax it to the Express Scripts PA unit at **1-800-357-9577**.
